Dear Parent/Guardian

Below location is the closest rapid testing site offered by City of Jacksonville. This center offers free testing for our student and family. If you wish to test just your child and get a quick test result, you may consult your child's pediatric doctor or nearby urgent care centers like Nightlite pediatrics, Carespot etc. Some centers provide results within 1 hour that is very helpful to get a quick feedback. When you get result please contact our school and update test results.
